These are the results collected from graduates of the Class of 2015 and Class Of 2016. The Knowledge Rate is calculated from the graduates we connected with. You will see that some graduates did not provide information regarding their plans after graduating. The Career Outcome is the percentage of students that were in or working towards their career. You will notice a secondary career outcome percentage calculated from within the knowledge rate.

Information collected and collated by Nicolette Yevich, Director
James C. Denny Jr. Career Development Center
